

# Lean Certification Series

HOW do we start a True Lean transformation in our company? HOW do we convince the skeptics in our midst? HOW do we sustain it? Answers aren't always easy - but we can help with **HOW!**

The UK Lean Systems Program is the only provider that has a 25-year active partnership with Toyota Motor Manufacturing. We teach you HOW to define and implement **True Lean™**. No other program offers as many instructors who have Toyota management experience, an interactive classroom—plus a unique laboratory where clients can visualize HOW True Lean works! Many trainers will teach you the tools - we give you the extra depth that comes from understanding the principles that support them.

**True Lean™** is relevant to every business. We educate numerous employees in many different industries, including manufacturing, construction, health care, service, administrative, nonprofit, and education. Who benefits? Beginners, experienced practitioners, all levels of management, and anyone else tasked with or interested in lean principles and practices. The quarterly series is offered 10 times per year. Clients attend for one week each month for three consecutive months, receiving the University of Kentucky Lean Systems Certification at the end of the third week.

The schedule for 2020 is:

	<b>Week 1</b>	<b>Week 2</b>	<b>Week 3</b>
<b>Series One</b>	January 13-17	February 10-14	March 2-6
<b>Series Two</b>	January 27-31	February 24-28	March 23-27
